We raced four Solings on Saturday with mostly light winds and a pond full of birds. We raced the full course for the first 3 or 4 heats with port roundings on all marks. We had to abandon the fourth heat because a large raft of partly submerged leaves in the SE part of the pond began to move into the center of the pond. All four boats were entrapped and had to be nursed to shore to clear the debris. The remaining heats were sailed using only the northern two marks.

We think the high winds on Friday blew a bunch of leaves into the pond, and hopefully as they get more water logged they will sink to the bottom and conditions will slowly improve.

Yes, five Solings raced at the pond on 11-November. We had light and shifting winds for most of the time, with Peter Eschman serving as RD. We sailed starting south with port roundings on the SW green and center orange marks and then back north to the finish line. On the 6th of the 11 heats we started with the same two marks, and then sailed north to round the NE orange and NW green before heading back south to the finish.

Some boats had transmitter/receiver problems on the long course, so everyone agreed that the short course was better in the light winds for the remaining heats.

Three of the skippers were racing their boats in the first Soling event they had ever sailed, and four of the five skippers finished first at least once.

Everyone had fun, so it was a great event for us.

DF95's sailed on Nov 4th with nice weather temp-70-75 and reasonably good wind. Races included end to end rectangles and bowties and a few one lap and two lap races around all outer marks John B and John C served as RD. We started with four DF95s. Clough's boat, sailed by Mike Wilson, burned out the winch servo in the first race and Mike sailed a Soling for the remaining heats. The Soling out sailed the 95's in some heats.

It was a truly beautiful day at the pond yesterday, I'd like to thank everyone who came and raced.

The winds were gusty and fast, making for some crazy spins and general calamity. The marks acted as a trap for the boats as well. Jay managed to navigate this the best with a commanding lead in most races.

We had minor calamity, as the rescue tug boat sank trying to pull Boyd off the yellow mark. I personally heard a last, aching murmur of 'My heart will go on' as the bow disappeared into the depths.

Yesterday was a beautiful race day, with light but mostly consistent winds and a nice warming bit of sun.

The races were a nice mixture of long and short, starting with a few around the pond to take advantage of the wind, and some sprints mixed in to demonstrate John and Jay's skill at rounding marks.

Jay and I were in stiff competition, with John and Greg close behind.

We had a guest on the water -- Dana had fun sailing John's Soling. I appreciate a lot that he could bring an extra boat. I'm trying to tantalize anybody that can show up without committing.

Results are included here, and I want to thank everyone who made it, it's been a while for me and I had a good time.
